**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1, 151 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 9827571A or EP0945886 A.

The reference discloses gas discharge panel production method comprising forming a surrounding unit (10) by putting a first panel (8) and a second panel (4) together, a barrier ribs (7), a sealing material (9), wherein the pressure inside the surrounding unit is lower than the pressure outside the surrounding unit (see column 20, lines 2-24), a fastening tool (Fig 18)

***Allowable Subject Matter***

Claims 2-6, 25-32, 60, 90-91, 107, 108, 134-136, 152-154 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments filed 01-07-04 have been fully considered but they are not persuasive.

Applicant argues (1) that the EP cited reference does not disclose not suggest that during a sealing step or bonding step the pressure inside the surrounding is adjusted to be lower than the pressure outside the surrounding unit, (2) that the EP publication fail to disclose a fastening tool. The examiner disagrees. With respect to(1), wherein the pressure inside the surrounding unit is lower than the pressure outside the surrounding unit (see column 20, lines 2-24). With respect to (2), see Fig 18.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
